

The Chippewa County Road Commission has an immediate opening for an experienced **Heavy Diesel Technician/Mechanic** to join their team in **Pickford, Michigan**.

Are you mechanically inclined and able to maintain, troubleshoot and repair equipment for the safe operation of trucks and equipment? Are you flexible to work both in-shop and out in the field? If so, this position may be a perfect fit for you. We make available the service vehicle, necessary tools, and equipment. Technicians must be self-motivated and able to meet goals and deadlines by working in a productive and safe manner. Working well with others in a team environment is a must. This position works under the general direction of the Chief Mechanic who is located at the Sault Ste. Marie facility.

#### **WHAT YOU WILL DO.**

- Perform all levels of diagnostic testing/troubleshooting on modern diesel engines & hydraulic systems.
- Perform all critical chassis, engine, hydraulic, emission and electrical repairs/adjustments on commission maintenance vehicles.
- Make/test/verify adjustments/repairs to parts, components and systems on various heavy equipment and special mobile equipment/attachments.
- Communicate effectively and professionally with staff on repairs.
- Must be able to work a reasonable amount of overtime when required by fluctuating workloads and be available for after-hours calls, as needed.
- Complete all necessary documentation and follow up in a timely, orderly manner.
- Assist in writing bid specifications, help in analyzing bid proposals, and assist in making bid award recommendations to the Manager and Board.
- Ability to work outdoors in sometimes extreme weather conditions.

#### **WHAT WE OFFER.**

- \$53,872.00 annual starting salary.
- Health, dental, vision and life insurance.
- Generous paid sick time and vacation time.
- Defined benefit pension plan.
- Retirement healthcare until Medicare age.
- Optional deferred compensation and AFLAC coverage.

#### **WHAT WE ARE LOOKING FOR.**

- Must have 3 years heavy equipment/truck experience and/or college or trade school degree.
- Possess a valid Michigan Class A Commercial Driver's License, required.
- Able to demonstrate understanding and ability to troubleshoot/repair modern diesel emission systems including EGR, DPF, and SCR systems.
- Able to demonstrate experience with modern diesel engine diagnostic equipment and software.
- Able to lift 100 or more lbs. with assistance.
- Must be experienced in the operation and use of a DVOM.
- Experience with troubleshooting and repair of Allison automatic transmissions is desired.
- Experience in load sensing hydraulic systems, air over hydraulic controls, pilot controls and electric over hydraulic controls preferred.
- Ability to weld and fabricate preferred.
